

TOURISM:

Spain is a tourist country per excellence, positioned among the first in the world in terms of the number of visitors and tourists. Segovia is part of Monumental Spain, a well-established tourist city, declared a World Heritage Site in 1985. Segovia has been offering unique monumental and gastronomic tourism for years, and as such is known anywhere in the world. When we think of Segovia, the first thing that comes to mind is the Aqueduct, a monumental work of Roman engineering, the Cathedral, the last example of Spanish Gothic, known as "the Lady of the Cathedrals" for its singular beauty; and the Alcázar, which is a symbol of the city, and on many occasions has served to represent our entire country.
